Knight Oil Tools Newsletter – April 2015

## Knight Oil Tools to Exhibit at 2015 Offshore Technology Conference

Knight Oil Tools will be participating at the Offshore Technology Conference (OTC) held May 4<sup>th</sup> through May 7<sup>th</sup> at NRG Park (formerly Reliant Park) in Houston, Texas.

The annual Offshore Technology Conference is the largest oil and gas industry conference and exhibition in the world. More than 108,000 offshore oil and gas industry experts from around the world attended OTC in 2014.

**Knight Oil Tools' exhibit (Booth 8115) is on the center aisle of the NRG Arena. Convenient shuttle buses are available to continually transport visitors to and from the NRG Center and Arena.**

The Knight Oil Tools exhibit will showcase products and technologies from the company's Rental Tool Services, Fishing Services, Manufacturing, Inspection & Hardbanding and QHSE Training & Consulting service lines.

Knight Manufacturing will be demonstrating an automated pipe maintenance system which optimizes the lifecycle of tubular goods through the cleaning, inspection and preparation process. This system increases daily output, provides consistency in quality and planning and reduces labor time per joint of pipe. The automated process also provides a safer work environment by eliminating the handling of pipe, grinders and brushes.

For more than 40 years, Knight Oil Tools has been providing "zero-failure" equipment and services to the oil and gas industry. With more than 50 locations worldwide, Knight Oil Tools has grown to include Rental Tool Services, Fishing Services, Manufacturing, Inspection and Hardbanding, and QHSE Training and Consulting – making it the largest privately held rental and fishing tools company in the world.
