

KNIGHT NEWS

Knight Oil Tools Newsletter – December 2014

Looking Back at 2014 and Forward to the New Year

As 2014 comes to an end and everyone gets ready to enjoy the Holidays, it is a good time to look back on a successful year for Knight Oil Tools. As a company, many of the events that we looked forward to in 2014 have become a reality:

- Our Williston, ND pipe facility expansion provides the latest technological advancements in cleaning, inspection, hardbanding and repair of drill pipe for both Rental Tool Services and customers operating in the Williston Basin.
- Knight Oil Tools moved into Colorado with a new facility in Windsor to serve customers operating in the Niobrara Shale formation and Denver Julesburg basins.
- In June, our new facility in Hobbs, NM was completed. The facility houses our Rental Tool Services and Fishing Services units and will serve Knight Oil Tools' customers in the Mid-Continent Region and the prolific Permian Basin in New Mexico and W. Texas.
- A new pipe yard opened in Oklahoma City, OK.
- The Alice, TX complex was expanded with new facilities to house Manufacturing and Tri*Drill Services.

It has been a busy and successful year at Knight Oil Tools and we look forward to even more progress in 2015.

To all of our customers, employees and vendors, we wish you a very Merry Christmas and a happy and prosperous New Year.

For more than 40 years, Knight Oil Tools has been providing “zero-failure” equipment and services to the oil and gas industry. With more than 50 locations worldwide, Knight Oil Tools has grown to include Rental Tool Services, Fishing Services, Manufacturing, Inspection and Hardbanding, and QHSE Training and Consulting – making it the largest privately held rental and fishing tools company in the world.
